Sustainability Committee Meeting Thursday, November 8th L-201 3:00 PM

In Attendance:
Jacob Deininger, Clarence Rogers, Kat Puhlman, David Kanoy, and John Wojciechowski

Topics of Discussion:

Ongoing Business:

Recycling Bin Grant: Our bins have arrived and look great! 18 large multisort recycling fixtures for high traffic commons areas on Wilmington Campus, North Campus, Burgaw Center, and Surf City Center have been placed. Please promote!

Bin Locations:

1) Burgaw Center Lobby
2) Surf City Center Lobby
3) North Campus NA Building Lobby/Atrium (North Wall)
4) North Campus NA Building Lobby/Atrium (South Wall)
5) North Campus NB Building 1st Floor Hallway
6) North Campus NB Building 2nd Floor Lounge
7) North Campus NE Building Lobby
8) Wilmington Campus S-Building 1st Floor Lobby
9) Wilmington Campus S-Building 3rd Floor Lobby
10) Wilmington Campus S-Building 4th Floor Lobby
11) Wilmington Campus S-Building 5th Floor Lobby
12) Wilmington Campus S-Building 6th Floor Lobby
13) Wilmington Campus L-Building 1st Floor Lobby (2nd Street Side)
14) Wilmington Campus L-Building 2nd Floor Lobby (2nd Street Side)
15) Wilmington Campus Union Station Hallway Across from Port City Java
16) Wilmington Campus Union Station 2nd Floor Lobby (wall next to HR Offices, Room 299A)
17) Wilmington Campus Union Station 3rd Floor Lobby (wall next to computer lab, Room 303)
18) Wilmington Campus Wilson Center 1st Floor Classroom Area (right side of stairs to Mezzanine Level)

**Campus Wide Recycling Initiative:** Roll out of the pilot program has taken place in the WA and L Buildings. Custodial seems to be doing a good job of collection. Next phase will be training custodial and switching out trash dumpers for recycling dumpsters at Surf City, Burgaw, Union Station, and S/A/N. David Kanoy will be in communication with Ray Smith about custodial training.

Over Summer 2018, custodial has placed an additional 70 bins for classrooms/offices in the S-building and select locations of the A-building and N-building. Working with Joe Suleyman to acquire additional bins to finish out these spaces and move on to classrooms/offices in Union Station.

**Battery Recycling:** Would like ECO Club members to collect the batteries and deposit at Hazardous Waste Facility on Hwy 421 in both fall semester and spring semester to keep load from getting too large. Recycled 185 pounds of batteries over the summer that had been collected since fall of 2017.

**“CFCC Recycles” Campaign:**

- Work with CFCC Public Relations to develop an education campaign to include CFCC-all, intranet, newsletters, and TV monitors, social media, signage, and a video short to educate CFCC students, faculty, and staff of recycling program.
- Already posted info on TV monitors about general recycling and battery recycling.
- Develop list of recyclable items to be placed at vending machine areas, cafeteria, and coffee shops as well as in .PDF format on CFCC website.
- David Kanoy reported that new signage at EV stations on North Campus are helping keep spaces available for electric vehicles.
- David Kanoy will also be looking into marketing materials that clarify what items are recyclable and what are not.
- Examples of previously run campus marketing:
ECO Club Update: Committee welcomed new ECO Club ambassadors Ayerland Baker and Catherine Herring. They will start working to come up with relevant programing and report back to the committee.

New Business:

- Investigate collaborating with Port City Java to promote using reusable mugs.
- Investigate having either a representative from TerraCycle or Keep America Beautiful present on recycling/sustainability opportunities in the community.
- Investigate regional partnerships to recycle used CFCC dry erase markers—working with UNCW Library (and their existing program) to ascertain feasibility.

Meeting was adjourned at 3:45 PM
